

SET-UP CREW

Thank you for volunteering to help setup for this weekend's festival.

Your job is to place the **mailboxes** around the building... they each have to go to a specific spot, and need to be put on a desk.

When you take a desk from a room, put a piece of tape on it, with the room number. That way, we can put it back in the correct room on Sat.

On the front "door" of the mailbox, you will see a small number.
1 = woodwind, 2 = brass, 3 = string and percussion.

Grab two mailboxes that are labeled _____

Place them outside of rooms _____ and _____
